### [Helping Hands!](#)

The pandemic has created a dangerous situation for many individuals who have been or are in an abusive relationship. Some struggled for a roof over their head, some for basic necessities, and some to provide proper equipment to their children for education.

We are happy to say that with the continued support of all our donors and the grants we received, we were able to provide comfort and strength to many families and individuals by paying their rent & utilities, their legal fees, buying groceries, buying laptops, and school supplies for their children, providing money for transportation, paying for medical insurance and other personal items such as winter clothing, etc. MaiFS spent 5 - 8 times more in client assistance during the Pandemic months than a normal year.

All this was possible due to the continuous love and support we received from our community. Thank you for your generosity.
